

Managing Your Digital Identity in Medicine

Jason Woods, MD & Brad Sobolewski, MD, MEd

Who are these guys?

Brad Sobolewski, MD, MEd

Professor, Division of Emergency Medicine

Cincinnati Children's

Jason Woods, MD

Associate Professor, Section of Emergency Medicine

University of Colorado and Children's Hospital Colorado

A scenic landscape photograph of a mountain valley. In the foreground, a calm lake reflects the surrounding scenery. The left side of the lake is lined with dense evergreen trees. The right side features a mix of evergreens and trees with vibrant autumn foliage in shades of orange and yellow. In the background, majestic mountains with layered rock formations rise steeply. The peaks are partially covered in snow and are bathed in the warm, golden light of a low sun, creating a dramatic and serene atmosphere. The sky is a pale blue with soft, wispy clouds.

From the Blog

“ I believe it's essential to communicate effectively with patients and families. To do this requires being up-to-date on the best evidence and techniques that allow us to care for ill and injured children.

Brad Sobolewski, MD, MEd

About

Biography

One of the most important things we can do for patients and their families is to educate them about our care recommendations and why we are doing them. The Emergency Department is a place where we assess and treat the unexpected things that life throws at us, and I welcome the opportunity to help patients and their families during their visits to the Emergency Department.

Brad Sobolewski, MD, MEd

I'm a Pediatric Emergency Medicine physician, blogger, podcaster, video production expert and more.

I'd love to collaborate with you on online asynchronous educational content & I'd be delighted to present virtually or in person at your institution.

You may know me from...

Mission Statement & Goals

I am one of the forerunners of digital scholarship and online asynchronous education and knowledge dissemination in Pediatric Emergency Medicine. My goals are to advance the practice and science of knowledge dissemination in my field, and to share what I have learned with my colleagues who provide care for ill and injured children.

University of Colorado School of Medicine	Resident	2013	Pediatrics
Children's National Medical Center	Fellow	2016	Pediatric Emergency Medicine

A. Personal Statement

My career focus has been to educate the medical community regarding pediatric emergency care and relevant novel discoveries through technologically-based Free Open-Access Medical Education, particularly podcasts, social media, and web content. My dissemination efforts have targeted a variety of learners, including the full array of front-line providers of emergency care. From 2020-2023, I was an inaugural Co-Chair of the PECARN Dissemination Workgroup, helping define the group’s vision and mission and establish processes which embed dissemination into all research output. In this role, I directly achieved the following: created a partnership with PedsRAP (a well-known pediatrics education product), with 13 podcasts created from PECARN/Emergency Medical Services for Children (EMSC)-relevant evidence; created a PECARN twitter handle, now with >2000 followers and content production 3x/week; created a YouTube channel as a repository for PECARN video content; and established relationships with education organizations and professional groups to access additional audiences including Don’t Forget the Bubbles, Academic Life in Emergency Medicine, and JournalFeed. I also led the creation of both guidance for dissemination sections of PECARN grants, as well as multiple resources for others to use in the creation of their own multimedia work, increasing the overall capacity of PECARN in the dissemination realm. In 2023, I was again funded as the PEM-NEWS nodal Dissemination Core Lead.

Outside of my specific work in PECARN, I am known as an expert in the use of podcasts to disseminate medical education. I have created >150 podcast episodes with a wide range of target audiences across the medical practitioner spectrum. I was a featured plenary presenter at the 2021 American Academy of Pediatrics Annual Conference and Exhibition on the use of podcasts, blogs, and digital learning in the advancement of professional careers. Finally, I have authored and co-authored peer-reviewed journal publications in this area. My established, national leadership of dissemination activities, including in PECARN, make me uniquely suited to serve as the dissemination lead for this grant

B. Positions, Scientific Appointments and Honors

Jim Brown

She's a flat out liar. She's deleting comments and blocking people that are in no way threatening to her. Global attack? Cry me a river. Block me again and I'll call you personally...it's pathetic!

Avoid this dr. at all costs

This woman is completely incompetent and was abusive to my daughter. I'm still in shock about it. I will be filing a complaint against her to the medical board. I don't know what to say other than please avoid this doctor. If you can even call her that.

TWITTER STORM: March 5th

#DoctorsSpeakUp

Objective: To take on the anti-family, anti-choice, pro-pharma agenda of the American Academy of Pediatrics on Twitter on March 5th and trend #DoctorsSpeakUp to get our messaging out and noticed.

Why: The AAP supports the repeal of religious exemptions to vaccines across the nation, supports the restricting of medical exemptions and they are gaining ground. The AAP supports minors obtaining HPV vaccines/Truvada without the consent or knowledge of parents. The AAP supports Gardasil. The AAP supports the influenza vaccine for school attendance. The AAP pushes the Pharma agenda and they have the power and money to advance their goals.

March 5th, the AAP will be tweeting their messages all day long under #DoctorsSpeakUp.

We need to fight back. We need to include #DoctorsSpeakUp in EVERY tweet so we hijack their hashtag. So all who read THEIR tweets, read OURS. And we need to include the local AAP State Chapters and the National Chapter @AmerAcadPeds

The below is the link to ALL the chapters of the AAP- find yours are Tweet them- ALL DAY!

<https://www.aap.org/en-us/about-the-aap/chapters-and-districts/Pages/chapters-and-districts.aspx>

Do **NOT** start a tweet with @ or the @recipient will be the ONLY one who sees it.

Tweet/RT these all day long:

1

When will #DoctorsSpeakUp that #vaccines harm and kill children?

2

When will #DoctorsSpeakUp that the Hepatitis-B #vaccine for newborns is unnecessary and harmful?

3

When will #DoctorsSpeakUp that #vaccines are not #safeandeffective for all?

4

Why won't #DoctorsSpeakUp that #vaccines #harm many of their patients?

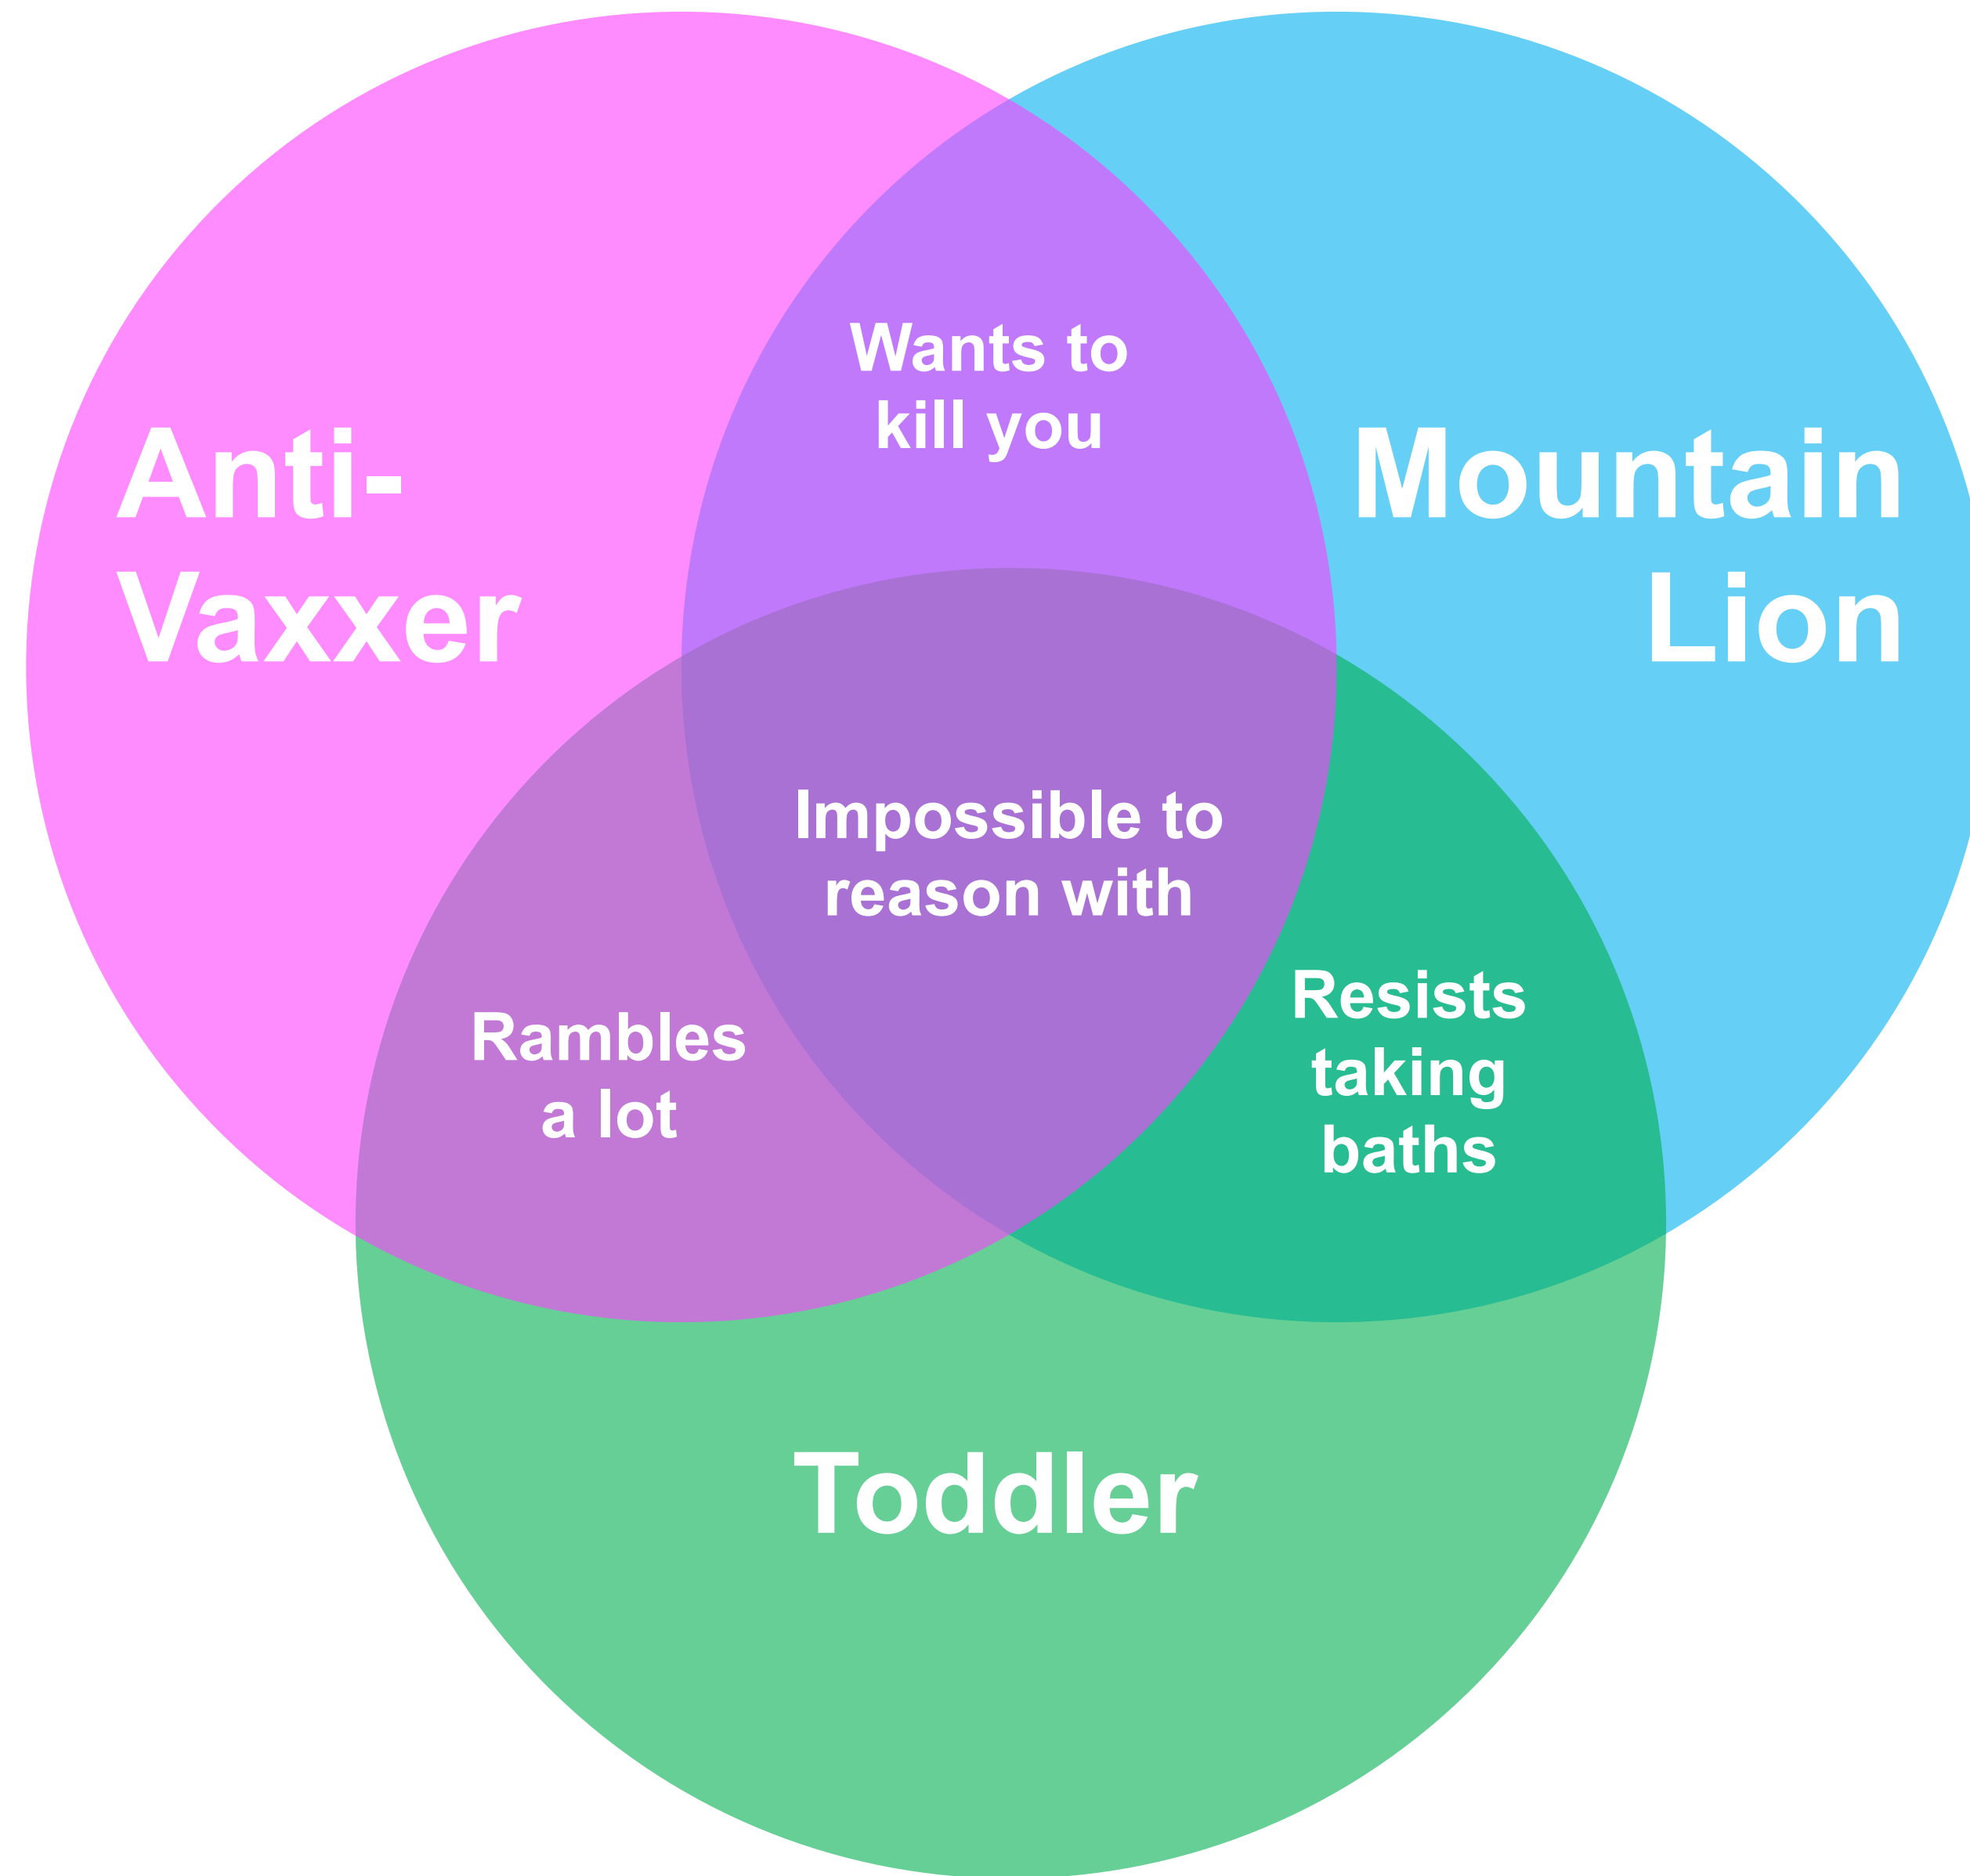

5

When will #DoctorsSpeakUp that only 1% of #vaccineinjury incidents get reported, according to a Yale study?

6

When will #DoctorsSpeakUp that the #vaccineinjured cannot sue a #vaccinemaker for faulty #vaccines?
That #VaccineCourt is a travesty of justice?

PARENTS AGAINST MANDATORY VACCINES

Educator Portfolio

Brad Sobolewski, MD, MEd

I'm a Pediatric Emergency Medicine physician, blogger, podcaster, video production expert and more.

I'd love to collaborate with you on online asynchronous educational content & I'd be delighted to present virtually or in person at your institution.

You may know me from...

Mission Statement & Goals

I am one of the forerunners of digital scholarship and online asynchronous education and knowledge dissemination in Pediatric Emergency Medicine. My goals are to advance the practice and science of knowledge dissemination in my field, and to share what I have learned with my colleagues who provide care for ill and injured children.

A Podcast Discussing Little Patients but Big Medicine

Host Jason Woods MD periodically posts discussed with a variety of experts in the field discussing direct patient care, policy, safety, and practical advice for those interacting with pediatric patients.

A night photograph of the Pittsburgh Suspension Bridge, featuring its iconic stone towers and blue steel structure. The bridge is illuminated, and the city lights of Pittsburgh are visible in the background. The text "Identity Protection" is overlaid in a large, white, sans-serif font across the center of the image.

Identity Protection

What did you learn?

Biographical

- Institutional profiles should be updated
- Take care with addresses for licensing
- Remember the amount of publicly available information

Professional Activities

- Keep your CV updated
- Pubmed/NLM can serve bibliography and biosketch
- Keep an educator portfolio
- Publons is helpful for review tracking

Online Presence

- Social media - approach cautiously and with intent
- Landing pages can be useful tool
- Identity protection is important
